County Dental
Foundation
Endowment meet
its \$1 million
goal to bring oral
health services to
those in need.*

Donate a DAY FOR SMILES

November 7-11, 2022

In 2018, we started something new and bold to help bring much needed oral health services to the citizens of Pierce County. We asked dentists across the community to donate the equivalent of one day of revenue to help make a brighter future for Pierce County. You responded in a big way, raising more than **\$380,000!**

Once again, we invite you to join other caring dental professionals to take part in **A DAY FOR SMILES**, November 7-11, 2022. Make a donation from one day of dentistry in your office, or, if you don't own your own practice, consider making a personal donation during the week. Your contribution will help the Pierce County Dental Foundation Endowment create a lasting legacy to support improved oral health in our community.

Let your patients and team members know you're making a donation on their behalf to better serve our citizens in need. We'll recognize your generous support in the Pierce County Dental Society newsletter, and on the PCDS website and social media. You'll also receive a special award to proudly display in your office.

Together, we can help raise awareness of the many caring ways our Pierce County dentists help those in need. Join us.

One day really can make a difference. Sign up today for **A DAY FOR SMILES**. Watch for a donation sign up in your email or contact cindy@pcdentists.org.
